Lewis University has compiled the following resources to ensure students have information about educational requirements for professional licensure and certification in all U.S. states. The charts below provide links to state licensing agencies and boards of higher education, and it has not yet been

determined if they meet licensure or certification requirements for each state.

AGPONP. Requirements to

become licensed vary by state. Additional training, field work, or examinations may be required. Students interested in becoming licensed to practice in this field, in Illinois or another U.S state or territory, should inform themselves about licensure requirements in the state or territory in which they intend to live and work.

PONP, if completed according

to the requirements in the Lewis University Catalog, meets the licensure and certification requirements of the following States:

Alabama	Not yet determined
Alaska	Not yet determined
American	Not yet determined
Samoa	
Arizona	Not yet determined
